Summer Undergraduate Research Program

SURP provides stimulating, hands-on research opportunities for undergraduates considering graduate school and a career in biomedical research. Students admitted to the program conduct an independent research project under the guidance of a faculty member in one of the following programs:

- Cell Biology & Molecular Physiology
- Cellular & Molecular Pathology
- Microbiology & Immunology
- Molecular Biophysics & Structural Biology
- Molecular Genetics & Developmental Biology
- Molecular Pharmacology

Funding

$3,500 stipend for the 10-week program. Plus $500 for transportation and FREE campus housing.

Eligibility

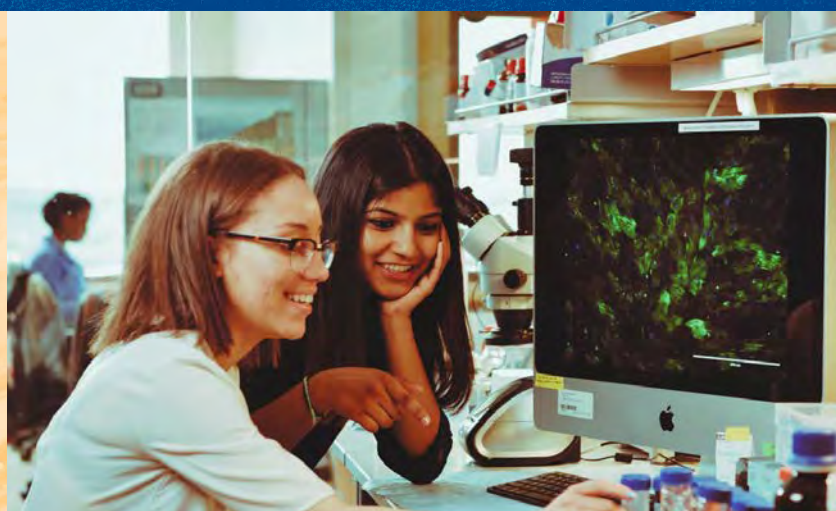

Preference is given to rising sophomores or juniors enrolled in a U.S. college or university. Individuals from groups underrepresented in the sciences are strongly encouraged to apply.

Applcation Opens September 1

Apply online at:

www.somgrad.pitt.edu
